

# EACE PROFESSIONAL EXCHANGE

Are you interested in expanding your employer brand and recruiting efforts to college students throughout the Northeast and upper Mid-Atlantic states?

Would you like to build relationships with top college career centers who can speak to students about your organization's opportunities?

The Professional Exchange Program gives your organization an opportunity to host a site visit for our college career service professional members to learn more about career opportunities at your organization. Career services staff will then be able to help you create awareness of your internship and/or career opportunities with their college students.
